PROPERTY ADDRESS

123 Test St, New York, NY 10001

ZIP Code: 10001

Analysis Date: 2026-06-19

Property Type: Condo

Generated for: Test User

Asking Price	Est. Monthly Rent	Bed / Bath	Sq Ft	Year Built
\$850,000	\$3,200/mo	2 / 1.5	900	2005

This report was generated by 8 specialist AI agents using the LangGraph framework. Each agent analyzed one dimension of this property using real public data sources. See Page 3 for detailed agent reasoning.

Score Breakdown by Agent

Agent	Score	Weight	Contribution	What it means
Price Momentum	34.0	25.0%	8.5	Price declining or growing below 2%
Neighborhood	47.0	20.0%	9.4	Average neighborhood quality
Rental Yield	49.0	15.0%	7.3	Yield 4-7% (average)
Forecast	45.0	15.0%	6.8	Price expected to stay flat or grow slowly
Air Quality	61.0	10.0%	6.1	Moderate air quality (AQI 30-60)
Pollen	75.0	5.0%	3.8	Low pollen (allergy-friendly area)
Airbnb STR	31.0	5.0%	1.6	STR yield below LTR (better to rent long-term)
Climate Risk	87.0	5.0%	4.3	Low risk (FEMA Zone X, minimal flood risk)
OVERALL SCORE		100%	47.8	

KEY INSIGHTS

STRONGEST FACTOR: Climate Risk: 87.0/100 -- Low risk (FEMA Zone X, minimal flood risk)

BIGGEST RISK: Airbnb STR: 31.0/100 -- STR yield below LTR (better to rent long-term)

OVERALL VERDICT: HOLD -- Mixed signals with score 47.7/100. Some strengths offset by weaker areas. Consider your risk tolerance.

Why Each Agent Gave Its Score

Each of the 8 specialist agents analyzed one dimension of this property using real public data sources. Below is the reasoning behind every score.

Price Agent

34.0/100

DATA SOURCE: Zillow ZHVI CSV

What it measured: 12-month % price change vs national average

Score interpretation: Score 34.0/100 = Below average

0-40: Price declining or growing below 2%

41-70: Growing 2-4% (near national average)

71-100: Growing 4%+ (above national average)

Impact: Higher score = better capital gains potential

Neighborhood Agent

47.0/100

DATA SOURCE: Google Places + Census ACS

What it measured: School ratings, crime index, walkability. Formula: 40% schools + 30% safety + 30% walkability

Score interpretation: Score 47.0/100 = Average

0-40: Poor schools, high crime, car dependent

41-70: Average neighborhood quality

71-100: Good schools, safe, walkable

Impact: Higher score = stronger rental demand

Rental Yield Agent

49.0/100

DATA SOURCE: Zillow ZORI Rent CSV

What it measured: Gross rental yield = $(\text{monthly_rent} \times 12 / \text{price}) \times 100$

Score interpretation: Score 49.0/100 = Average

0-40: Yield below 4% (poor cash flow)

41-70: Yield 4-7% (average)

71-100: Yield above 7% (strong cash flow)

Impact: Higher score = better monthly income

Forecast Agent

45.0/100

DATA SOURCE: Zillow 24-month price history

What it measured: ML LinearRegression price prediction for next 12 months

Score interpretation: Score 45.0/100 = Average

0-40: Price expected to decline

41-70: Price expected to stay flat or grow slowly

71-100: Price expected to grow significantly

Impact: Higher score = better future returns

AQI Agent

61.0/100

DATA SOURCE: EPA AirNow API

What it measured: Current Air Quality Index (AQI 0-500). Formula: $\text{score} = 100 - \min(\text{AQI}, 100)$

Score interpretation: Score 61.0/100 = Average

0-40: Unhealthy air (AQI 60+)

41-70: Moderate air quality (AQI 30-60)

71-100: Good air quality (AQI below 30)

Impact: Higher score = healthier living environment

Pollen Agent

75.0/100

DATA SOURCE: Google Pollen API

What it measured: Tree, grass, weed pollen combined index. 1 in 4 Americans has seasonal allergies.

Score interpretation: Score 75.0/100 = Above average

0-40: Very high pollen (severe allergy risk)

41-70: Moderate pollen levels

71-100: Low pollen (allergy-friendly area)

Impact: Higher score = better for allergy sufferers

Airbnb STR Agent

31.0/100

DATA SOURCE: Inside Airbnb market data

What it measured: Short-term rental yield vs long-term. $\text{STR yield} = (365 - \text{vacancy}) \times \text{nightly_rate} / \text{price}$

Score interpretation: Score 31.0/100 = Below average

0-40: STR yield below LTR (better to rent long-term)

41-70: STR slightly better than LTR

71-100: STR significantly outperforms LTR

Impact: Higher score = Airbnb more profitable

Climate Risk Agent

87.0/100

DATA SOURCE: FEMA NFHL flood maps

What it measured: Flood zone, wildfire risk, extreme heat days. Higher score = LOWER risk (inverted scale).

Score interpretation: Score 87.0/100 = Above average

0-40: High risk (flood zone A/AE or wildfire zone)

41-70: Moderate risk

71-100: Low risk (FEMA Zone X, minimal flood risk)

Impact: Higher score = safer investment long-term

AI Investment Report

This is a sample AI-generated investment analysis report for the property at 123 Test St.

The property shows moderate investment potential with a mixed score profile. Climate risk is low which is positive, but price momentum is weak. The neighborhood quality is average and rental yields are moderate.

Environmental Summary

Air Quality (AQI)	42 (Good)	PM2.5	8.3
Flood Zone	Zone X	Wildfire Risk	Low
Tree Pollen	Moderate	Grass Pollen	Low
Heat Days/Year	12	Insurance	Standard

Neighborhood Summary

School Rating	7/10	Crime Index	Low
Walkability	89	Transit Score	92
Employment Growth	+2.1%	Median Income	\$72,500
Trajectory	Stable	Population	21,000

Important Disclaimers

This report was generated by PropIQ using publicly available data from Zillow, EPA AirNow, BLS, FEMA, and other sources. It is intended for research and informational purposes only and does not constitute financial, legal, tax, insurance, or investment advice. Always consult a licensed real estate professional before making investment decisions. Scores are model-generated estimates and may not reflect current market conditions.

Data Sources: Zillow ZHVI/ZORI, EPA AirNow, FEMA Flood Maps, BLS Metropolitan Area Employment, Open Pollen Network, Airbnb Inside.

AI Engine: LangGraph multi-agent pipeline with GPT-4o-mini coordinator.

Score Methodology: 8 specialist agents each produce a 0-100 score. The weighted composite is computed using user-configurable weights. BUY ≥ 70 | HOLD 40-69 | PASS < 40 .
